PROFILE

Experienced software developer and website developer based in Barishal, Bangladesh. Freelancing since 2018, helping clients turn ideas into clean, functional websites and software products — with a focus on solid code, thoughtful interfaces, and attention to detail from first line of code to final launch.

EXPERIENCE

Freelance Software Developer

2018 — Present

Self-employed

- Work independently with clients on software and website development, building web applications and digital solutions from concept to launch.
- Delivered 400+ projects for 380+ clients across web and software development.

EDUCATION

BSc in Computer Science and Engineering (CSE)

University of Dhaka

2018 — 2022

Studied core computer science fundamentals alongside software and web development.
